| Men 40-49 | 0 |
| Men 50-59 | 2 |

There are several active links on the page: by clicking onto the name of the Race, Google Maps will display the proposed track with the timing check points:

Athletes will register by clicking onto the Application, athletes must log-in or create his/her new account first. All entries create your own database of athletes. Athletes cannot use the same login into another producer's database.

Clicking onto the “I have account” will display the login box of credentials:

Athletes may use FB or Google profiles. For Athlete ID, they may use their nickname or other code (for example number of the sport association licence number) or their e-mail, all that will work just fine.

When logged in, the athlete’s basket on the left-hand side and his credentials on the right-hand side will appear.

Using this example, the cart is empty but in the athlete account’s orders summary there are still 3 orders waiting for payment.

When athlete clicks on MYSELF then the application will be filled in with his credentials, some other application items may still be empty and waiting for him/her to fill in:

By clicking onto the E-shop Orders he/she can find his/her order history and pending payments if there are any. In such case Athlete can pay that order on the same page:

The best way to see how it works is to create your own athlete account in your database and go through it on your own.

We hope this example was inspirational enough for you to fill in the questionnaire and send it to us today.
